

CARROLLTON STREETSCAPE

City of Carrollton, Georgia

Mr. Danny Mabry, City Manager

770-830-2000

This TE project reunified the historic Adamson Square and aesthetically improved the downtown area with new landscaping and hardscaping, including tree wells, decorative signs and lighting, wheelchair accessibility and bicycle racks.

Before

Preserving a Historic Landmark

BCA helped Carrollton to preserve its historic character by aiding the City to secure funding and developing this important project. The downtown business area now is more inviting. Landscaping that includes native Georgia wildflowers draws the public into Adamson Square; decorative, uniform signage and new, comfortable benches make the commercial center a friendly environment to visit.
