

JESUP STREETScape

City of Jesup, Georgia

Onda Woodard, City Manager

(912) 427-1313

*Views of streets before

This Transportation Enhancement project has reunified downtown Jesup's primary shopping area. Over the years, many of the building owners had made individual sidewalk and storefront improvements on their own, resulting in a visual hodge-podge. This city project provided uniform street furniture, tree wells, trees, and other landscaping, as well as, new sidewalks with decorative brick pavers.

Downtown Revitalization

Jesup streetscape improvements include new planting beds and other landscaping, benches, decorative paving for sidewalks, and pedestrian safety improvements at crosswalks. BCA prepared the application for funding, managed the planning, engineering, and the construction phases.
