

# McDonough

## *Livable Centers Initiative*

City of McDonough

Mr. James Lee, City Manager

770-957-3915

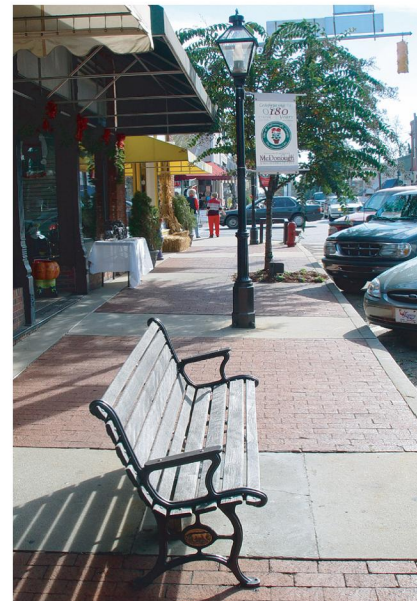

The City of McDonough functions as a commercial center, the governmental center for the County, a residential suburb, and a heritage tourism destination. During this period of unprecedented, rapid growth, the City has undertaken extensive efforts to preserve the historic integrity of its downtown while proactively preparing for progress.

*The vision of the community is to create a mixed-use, pedestrian community that will not only pay its way with increased tax revenue, but also will provide an enhanced quality of life for its residents.*

### Reconnecting McDonough's Town Center

With the help from BCA, the city secured funding from the Atlanta Regional Commission through its Livable Centers Initiative. The funds allowed the City to perform a study that will serve as the basis for the implementation of quality growth principles throughout the area.

Views of recent improvements including brick pavers, street furniture and lighting, and decorative iron railings.
