

ALTAMAHA REGIONAL PARK

GLYNN COUNTY, GEORGIA • DICK NEWBERN, GRANTS COORDINATOR • (912) 638 - 4666

The Nature Conservancy has placed the Altamaha River on its list of "Last Great Places" in the world due to its relatively untouched environment.

GREENSPACE PRESERVATION

Analysis of existing and proposed structures located within the park resulted in recommendations of various short and long term improvements. Prospective funding sources were identified and grants were obtained.

This project was funded by the Georgia Forestry Commission to resolve potential land use conflicts between development pressures and the forest in and around the park. Potential conservation efforts, changes in park policies, and potential land expansions were addressed.
