

BLACKSHEAR STREETSCAPE

BLACKSHEAR HEART • MR. STEVE WATERS, PRESIDENT • (912) 449-4446

This is a view of the downtown area prior to construction

The Blackshear downtown streetscape project consists of pedestrian and landscape improvements including sidewalk repairs/ replacements, landscaping, cross-walks, decorative pavement, and signage. BCA created the application for the Transportation Enhancement project, obtained budget for and managed the preliminary engineering phase of the Project.

DOWNTOWN REVITALIZATION

The project area runs along two major corridors in the central business district: Main and Central streets. The improvements enhance access to businesses and public institutions, as well as, created a safer and more welcoming environment for pedestrians.
