

CITY OF PERRY STREETScape

CITY OF PERRY, GEORGIA

MR. LEE GILMOUR, CITY MANAGER

478-988-2703

The project improved community cohesion in Perry by building new sidewalks that linked commercial, public, and residential areas with one another. The project also improved street crossings at major intersections and provided wheelchair access to improve safety for all.

TRANSPORTATION ENHANCEMENTS

Air quality has improved through reducing the amount of vehicle miles of travel by encouraging more pedestrian trips.

Connectivity among commercial areas, neighborhoods, public services, and community facilities has been improved as a result of project implementation. Area businesses have benefited economically from the improved pedestrian access.
