

McDONOUGH

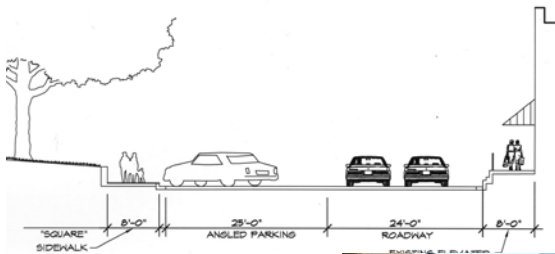

CITY OF McDONOUGH JAMES LEE, CITY MANAGER 770-957-3915

SIDEWALKS

New trees, sidewalks, crosswalks and decorative lighting will improve bicycle and pedestrian convenience and safety. BCA has managed the preliminary engineering, overseen the construction phase and is currently handling the closing out of the project.

Narrow, broken sidewalks entering the square

TOWN SQUARE ACCESSIBILITY

The commercial district around the public square includes businesses, public buildings and churches that generate a great deal of pedestrian traffic. These new trees and improved sidewalks serve a significant area of historic, vibrant commercial and institutional uses. Existing sidewalks are being improved to provide pedestrians with a safer environment to walk between shops and points of historic interest.
